

Welcome

COMPLEX CARE, MADE SIMPLE

Our philosophy of care is centred on each person's need, focused on enhancing independence, offering choice, and ensuring personal wellness. We work collaboratively with residents, medical professionals, and family members and loved ones to provide each resident's highest quality of life.

Our skilled and compassionate nurses, care aides, recreation teams, chefs, and hospitality staff work together to promote residents' health and well-being.

Life at The Waterford is active and vibrant—music, fitness, art, dance, and laughter make each day unique.
